WEDNESDAY, NOVEMBER 10, 1897.

## SIX PAGES

## A FEW WORDS IN SEASON.

We hope by this time, that possibly the unfortunate candidates in the election two weeks ago and their friends have had time to cool off and give mature thought to what they have done and what consideration. The Republican majority in this county was calculated to throw fellow off their guard: Democrats were lifted out of their boats as it were by something like a cyclone, but it could not be checked. It seems like everything went under the log cabin, the returns from the rural districts, the returns from the towns, the ticket disclosed nothing. The candidates worked hard but a lot of the fellows, didn't do what they said, they would do, vote under the Fusion ticket. That's where we lost. Who was to blame for it? The Lord only knows, unless it was them other fellows. Some sharp criticisms and harsh words have been hurled at the Fusion in certain quarters, but the treachery to the party and the ticket God knows we did what we could to help the thing along. The truth is that sometimes we hardly knew "where we were at." One fellow here was making a magnificent suggestion at one point, out yonder was another. It was impossible to know what to do. Because a couple of them had something else to do, besides giving us who to regulate of county politics. However as we have said, we did what we could, to help the boys get elected. So we suppose did all other fair minded Democrats. But the situation was critical from the beginning.

The Democrats six months ago were half as many as they were with the gold bags on one side and the Fusion on the other. They could not get the aid of one, but with the promised assistance of the other, they went into a fight, for the county offices. The fight was to down the Republicans by an artful combination which in the beginning, promised some hopes of success, but in the end proved disastrous. That's the fact of the beginning.

This blunder can't be laid to any one's door. The Fusion was a blunder, it tended to confuse. The voters did not understand the ballot. They could not vote intelligently under two devices. Moreover a large number, did not fall under the Fusion device, as they had promised. This is all of it. Hereafter we council the Democrats to stand by the party device, and to consult wise leaders.

This blunder is always open to legitimate criticism, but we detect and slip into it. We do not have to parade our Democracy to the world. In the future we shall go along as in the past, attending strictly to our business. Consulting the success of the party, as we see it.

Miss Lelia Henley, of this city, has announced herself as a candidate for State Librarian. Miss Henley is a woman of exceptional executive ability, and is in every way worthy of the position. She has served two terms as postmistress in this city by appointment under Mr. Cleveland and we venture to say the town never had a better one. Everything about the office was kept in perfect order, and the most modest of the public health before the Legislature as will do later and presents her claims to that body of distinguished men, we think she will make votes as none of her opponents can or will. We predict success for her.

Jim and Charlie Durhams will invest this fall \$500 in sheep and the Hon. Tice Jones says he is going to plant 100 acres in his farm. The farmers are going to move on themselves. High prices stimulates trade, stimulates farmers and helps everybody. It's not the question of what brought about these high prices, but the thing to do now, that they are here, is to take advantage of them and get our share of the prosperity. That's what wide-awake farmers like the gateman we mentioned above are doing and the thing for all farmers to do.

The Democratic party won a victory in Greater New York last week which ought to add something to its strength in the nation in 1900. There was a loss to the Republicans of \$38,000 votes. They claim that it was due to local causes, but it was a thrust at Republican rule in the east and a rebuke to the policies adopted by that party throughout the country.

The Ovenshaw Messenger is wanting the next legislature to change the election law. Almost before the ink gets dry on the Statute book, somebody is ready to have a change made in the law. Better let it alone. The people can learn to vote under the present system as any other and they are doing it.

Everybody was wondering last Monday what Morris Beard wanted with a Cloverport brick plant. His bid of \$14,000 came like a bombshell. No one was looking for it. Now Morris if you really want a brick plant come down and we'll see that you get one. This town needs a man with your nerve.

Captain Bill Ellis is the winning card for Governor of Kentucky. A practical business man, with ability, push and vim, he will make such a governor as Kentucky has not had in years. Bill Ellis? Why this very name is a Democratic inspiration.

HEREFATER when a fellow is seeking office at the hands of the people of Kentucky, he will fight like a lion.

—Danville Advertiser. This is the way we figure it here in Breckenridge.

REAL ESTATE was in demand at Hardsburg last Monday. There were several tracts of land sold by the Com missioner in which the bidding was lively and the price good. Farm lands are in demand.

## BRANDENBURG.

## HARDINSBURG.

## L. H. &amp; W. TIME TABLE.

## GOING EAST.

Passenger Daily arr. Hardsburg, 9:27 a.m.  
GOING WEST.

Passenger Daily arr. Hardsburg, 11:55 p.m.

Mr. V. Daniel is still quite feeble.

R. N. Miller will be Irvington last Friday.

The quail hunters went into the field last Monday.

C. E. Haswell and wife spent last Sunday in Cloverport.

Mr. Dr. J. T. Baker has been quite ill for the past week.

Mr. Owen Cunningham left Monday to visit her mother in Meade county.

Miss Gus Shellenback spent last week in the country visiting her father's family.

Swing machine oil, needles, shuttles, buttons, oil cans, screw drivers, etc., call on T. Lewis.

Miss Lula DeJernett came over from Louisville last Saturday and remained until Monday.

The telephone has been completed from this place to Custer, by the way of Harned and Garfield.

Mansions in the skies are built on the installment plan, and each good deed is a brick used in the construction.

Mattingly & Jarboe, of Kirk, sold 900 bushels of wheat, last week, to the Irvington Milling Company at 93 cents.

Henry of Rock Vale, has rented the old Hambleton hotel of W. K. Barnes. Mr. Lake will move up and open up the hotel at once.

Rev. S. K. Breeding has gone to Bonnville, Ky., to assist in a protracted meeting. Rev. Felix Roberts will fill his appointment here on the third Sunday.

Mr. Marcus Kinchane has rented his father's old place, and will move his family to town. Since taking charge of the post office he finds it too inconvenient to attend it and live out of town.

Mr. Owen Cunningham received word from his sister in Meade county, last week, that two of her children were quite ill with typhoid fever, one of whom was likely to die. Mrs. Cunningham left Monday to see them.

Miss Lula DeJernett occurred to Barron Ball, son of Boney Ball, one day last week. While handling one of the boys he was kicked on the head, making a bad fracture of the skull. The boy's condition was better Sunday, but he is still in a critical condition.

In the sale of the J. D. Beeler property at the Court-house door by the Commissioner, last Monday, Mrs. Beeler bought tract No. 1, 651 acres at \$500 and tract No. 3, 1181 acres \$317, and tract No. 4, 771 acres at \$207, to spend it with her son at \$161, and the homestead and 61 at \$16. J. W. Wright bought tract No. 9, 124 at \$1,049. Allen R. Kinchane bought the old Taylor property at \$20. The Breckenridge Bank paid in the Cloverport Paving Brick plant at \$15,000. J. B. Warren bought one half of the Nicklefield tract of the Fenwick estate at \$1,610. The Bank of Hardinburg bid in the J. C. Miller land at their debt interest and costs.

Sheep Values Contracted.

From American newspaper.

The difference in the value of sheep on our Free-Trade and Protection is shown in the results of an assignee's sale of the estate of Thomas McElroy, a farmer in Jefferson County, Ohio, who had given particular attention to sheep husbandry.

This sale took place in October, 1894, a few weeks after the passage of the Wilson bill, and the animals were all fine stock, including the

sheep of the Ohio "State Journal."

show that forty ewes were sold for 69 cents each, 30 lambs for 20 cents each, and one registered buck for 50 cents. Other lots chosen from the flock sold at similar prices, and all were fine merino sheep.

Secretary Miller of the State Board of Agriculture, in the "Daily Dispatch," "is authority for the statement that-to-day ewes of the same grade are worth \$3 to \$4 each, lambs \$2 to \$2.50, and registered bucks from \$15 to \$25."

A few days ago the Insurance Association of Medina County made an allowance of \$2 each for common breed lambs. This is what the Republicans have accomplished by a restoration of the Tariff on wool.

## BRECKENRIDGE NEWS.

WEDNESDAY, NOVEMBER 17, 1867.

## KENTUCKY CROP REPORT.

## Conditions of Crops and Live Stock

November 1st, 1867.

The report for November is made up from supplies received from 116 correspondents from 82 counties. More than the usual number of counties failed to report this month and the report, for this season, cannot claim to be as full as for former months.

WHEAT.

The acreage seeded to wheat up to November 1st, as compared with acreage of 1866, is as follows: Number of counties reporting indicate that the present acreage will be increased should the season permit of Fall plowing during November. Figures on the number of acres are for this reason withheld until next month.

The condition of the crop as compared with average is as follows: On November 1st, the condition of wheat was 98. It is estimated that 15 per cent. of the crop will have to be re-sown. Rain fell throughout the State on the night of October 31st and there is yet time to re-sow should it be necessary. Only a small proportion of the crop is above ground and in some cases it is coming up in spots here and there through the fleshy roots.

No complaint is made of damage from insects save in Christian county, where two correspondents report worms doing great damage.

HOGS.

The condition of hogs being fattened for market compared with average is 87. The condition of hogs has been unfavorable feeding and the best results have not been secured. Cholera is not prevailing to any great extent, 35 correspondents report cholera while 80 report no cholera.

CATTLE.

The condition of cattle is 86. Pastures failed in some sections and the condition of the cattle faltered. The condition of cattle has generally fallen off. Feeding has been necessary during the entire month and many farmers have put their herds on the market for what they would bring rather than contend with the many difficulties in the way of a supply of water and the long feeding season intervening between now and Spring grass. The number of cattle is for this reason very low.

HORSES AND MULES.

The condition of horses averages 87. The price of young horses and mules has been greatly affected by the increased cost of carrying through the winter and the demand that had sprung up for this class of stock as well as the improvement in price horses have realized.

SHEEP.

Show a condition of 90 and have without the trying conditions probably better than any class of stock.

THE DROUGHT.

The drought which began with the rain on October 31st was, in extent of duration, one of the most severe on record. The effect of crop, however, was mitigated by the fact that it did not set in until crops were sown or advanced to a stage where serious injury was impossible.

The western section of the State was the first to feel its effects, or to be more exact, a section a short distance west of the central portion of the State. It is believed to have originated from Davies prairie, extending from Davies prairie to the Tennessee line. Here the drought set in as early as June 20th, and the damage to the corn crop alone is enormous; but farther west the early corn had reached a stage where a fair crop was assured before the effect of the drought was felt. Gradually it extended eastward as by the time of the first frost it was in the crop and from that date until October 1st only local showers of the slightest character occurred. Added to this, extreme heat prevailed to such an extent that streams and springs that were never known to fail before dried up and the water supply had become the most serious question that ever confronted the farmers and citizens generally of Kentucky.

The ground early became too hard to plow and when seeding came to a standstill, except in corn and tobacco land. Some early sown corn found sufficient moisture to enable it to reach the surface where it was exposed to the burning sun and drying winds for a period of from four to six weeks. What could not be saved by the heat until rains have time to show what can be done in the way of reviving parched vegetation. The wheat crop has been postponed to a time when a favorable winter will be required for an average crop although many instances may be cited where wheat sown in time as late as November has produced a good yield, the outcome of the wheat crop of 1868 depends to an unusual extent upon a train of favorable circumstances.

It is now too late to expect any benefit to pastures in the way of supplying grazing, and feeding will have to be continued. In view of the continued amount of feed already expended in advances of pasture, the time for feeding begins to be serious, to practice means than the usual economy in feeding during the winter.

LEONARD MOORE,

Commissioner of Agriculture.

How to Cure Bilious Colic.

I suffered for weeks with colic and pain in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. M. A. F. Farnham, a widow, who are suffering from bilious colic can ward off the attack by taking this remedy as soon as any slight symptom appears. Sold by A. S. Newell, Lakes, Cloverport, and in A. Shell Stephensport.

## BRANDENBURG.

(Used from last week)

No matter I thought, whether McLean or Hayes this last seat once occupied by A. G. Thurman. None will ever bow in reverence to another as to that old Roman.

Our large cities gave a majority to McKinley in '96. In '97 these same cities went Democratic—the currency question made the difference.

Tuesday's vote should be of great interest to us as to who will be the right man in 1900 and we will have Democratic rule again.

I am glad Mr. Wych is to be Mayor of Greater New York and it makes me think that Messrs. Grinnell made that vast metropolis will have come to rejoice.

Sugar king Hayes Meyer has had an operation performed for appendicitis, incurred the break in the price of sugar stocks last week. The Illinois and Dennis of our millionaires seem to be contiguities. The Louisville Evening Post made a valiant fight for the Democratic ticket in a fearless, wide-awake soldier. He battles for the right he espouses and wherever it exists he has no favors to ask.

It is hard for the negroes in Louisville to realize that they have lost their chance to become policemen. They should however fully realize that words of confidence from their Republican managers are as chaff and straw.

We keep as we now. We hear that quite often. This is only half truth, we are as yet as bad as ever. We are here past, if good and ill, and all the million on millions of men who have gone before have for us prepared the way.

Not much interest seems to have been taken here in the result of the vote on the Constitutional Amendment and it seems to have been hard to make an estimate of the total vote. It stood in the count. I have been absent and failed to learn.

"Chinese miners are to take the place of colored miners in the Southern districts. An attempt will be made to break the strike that exists, and the skilled colored have been picked up for the work. They will all bear arms, live inside a galling gun equipped stockade and be body-gaurded by 100 former Chicago police. An agent of the Chinese Coal Company was in Chicago last week and communicated with the General Wilkinson Coal Company to deliver 800 Chinese at the mines of the Wilkinson-Bradford district. The first consignment of Chinese will be there on next Thursday and others as soon as possible can be made to take the place of the colored miners. All Chinese miners have been made conditional on the success of those engaged. Elaborate provisions have been completed to take care of the first 800 Chinese and to give them ample protection."

What a pretty picture this description makes!

Thousands of Americans, with thousands of colored miners, who are in need of support, are to be turned out of employment, turned out of their houses in the cold and pitiless winter, to go starving or begging as they may, while their places are to be taken by Chinese slaves, imported for the expressed degradation of white labor!

And it only well with Washington have I been in the sense of competition, but it is destined to be beautiful beyond any other city or any other capital in the world. What has been done is simply an earnest of what is to come in the future.

And it only well with Washington have I been in the sense of competition, but it is destined to be beautiful beyond any other city or any other capital in the world. What has been done is simply an earnest of what is to come in the future.

"In the suburb where I reside."

"I am much obliged to you," replied the detective as he took out a map and crossed off a space on it.

"Are you not going to send a man out there?"

"There would be no use of that. He is too smart to stay in the same place."

"I am sure he is not."

"There would be no use of that. He is too smart to stay in the same place."

"I am sure he is not."

BRECKENRIDGE NEWS.

WEDNESDAY, NOVEMBER 17, 1897.

The Klondike "Crax."

(From The New York Times)

Undoubtedly the popular notion of the Klondike region has become that it is a "place" which will be exhausted of its surface gold within one or two summer seasons, and will then revive forever to a period of greater prosperity. That has been the case with the Klondike, more favored by nature in respect of gold than with the regions within the Arctic Circle, where cold and darkness reign much more than half the year. But there are very trustworthy signs that it will not be the case with the Klondike.

The Goldfield, Yukon Company, with a capital of \$10,000,000, and the names given in connection with it, denote that shrewd investors, who do not make their investments except on trustworthy information, believe in the future of this region.

Such preparations as they are making will be of great value, and almost absurd if the available wealth of the Klondike could be gathered in a season or two. The fleet which they have prepared, and the building of which is already in progress, indicates their belief in a permanent business for it. Their steamer and boats might indeed be available for other purposes after the "crax" is over. But the Klondike is a place where they have also ordered and are awaiting except for the special service for which they are designed, and it is hardly conceivable that such a number of them should be expected to pay themselves and return a profit besides out of the proceeds of a single short season's business.

Still more significant of the belief of the investors in the future of the Klondike is their determination to construct a railroad over the Chilkoot Pass. The cost of construction must be enormous and this, as well as the equipment, will be about as worthless as the soil as the region is almost devoid. Yet the construction of the road is determined upon. There seems no doubt of the construction also of a road from the Canadian side which presents engineering difficulties and difficulties of operation perhaps even more formidable. Unless the men who have invested upon their judgment to go to the Klondike will be a considerable factor in the commerce of mankind for many years to come.

**Brekkie's Aragon Slave.**

This Best Slave in the world for Cut, Brusies, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Erptions, and positively cures Piles, or no pay refundable. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per tub. For Sale by Short & Hayes.

**He Would, But—**

One of the guardians of Prospect Park, Brooklyn, is a believer in matrimony. Barney, who does not care to speak of his wife, which deserves the park's clean lawn. Barney is a picturesque figure and visitors to the park who are cognizant of his wife's name and her history question most of what is personal of a natural. One of the first questions always is, "How old are you, Barney?" "One hundred and five," Barney replies with a smile, "and I am still as spry as a young horse." This was an English innovation. In Paris driver and fare shared the same plate, and this was copied by some private carriages.

The ingenious Mr. John H. Barnum, who was an architect of Hinckley, Leicestershire, however, brought him in 1834 to build a house with wheels and when he had completed it, informed him that the vehicle would hold him easily, or three at a pinch, would be able to draw, and safer if the horse fell. From this experience the vehicle, the hansom, was born, and the rest, as the legend goes, is history.

Now the park is a home for Barney. Barney best believes this to be of an exaggeration, for though Barney is a man in his 100th year, he is still as spry as a young horse.

"Are you married, Barney?" the visitor making visitor next inquires, and to that question Barney answers with equal readiness, "Oh, yes, though I have not seen her for many years now." And when he is asked what might be supposed to satisfy the visitor's curiosity, but one curious question is still further. "Is she you are still as spry as a young horse?"

"And what is that?" asked the young man.

"You don't know as much."

The young man slowly picked his way along the street, he couldn't help wondering to himself whether it was really worth while to give so much valuable time to other people's business.

**Disfigurement for life by burns or scalds may be avoided by using DeWitt Hazel Skin, the great remedy for burns and for all kinds of sores and skin troubles.**

The Wild Horse of Arizona.

"There must be 20,000 head of wild horses in the north and central and eastern Arizona. It is useless to put salt for the stock, for the wild horses chase away the cattle that come near it. At this season of the year they are most numerous. They have spread over the country in great bands, gathering up any stray animals they may come across. A horse is as good as lost to them."

Yours very truly,  
H. C. Crosser & Co.

**Respectfully,**

"That escaped criminal seems to have had time to rest it, but" remarked the talkative friend.

"At 'all,' replied the detective, drawing himself up haughtily.

"At the 't' he is so righteous he doesn't dare show his face where we are,"—Washington Star.

**A LITTLE SUFFERER.**

Face, Hands and Arms Covered With Scrofulous Humors—How a Cure Was Extracted.

"When five years old my little boy had scrofulous on his face, hands and arms. It was worst on his chin, although the sores on his cheeks and hands were very bad. He would scratch them, and the sores, which would fester, break open and run and then scab over. After disappearing they would break out again. They caused him a great deal of trouble, and the doctor had to bathe continually to keep him from scratching the sores. We became greatly alarmed at his condition. My wife had had scrofulous and had been treated by Dr. H. S. Sarsaparilla. We decided to go to his boy and we noted an improvement in his case very soon. His four bottles of Dr. H. S. Sarsaparilla, the cost of which was \$100, were of his blood and it has never since run."

WILLIAM BARTZ, 615 South Williams St., South Bend, Indiana.

You can buy Hoo's Sarsaparilla at all druggists. Be sure to get Hoo's.

Hood's Pills.

Prescription Pharmacists.

## Local Brevities

New Kraut.—Sulzer's.  
Sour kraut at City Bakery.  
Our prices advertise—Sulzer's.  
First class sweet cider at City Bakery.  
A void loneomes by reading the  
News.

Try out new crop New Orleans molasses.—Sulzer's.

Born to the wife of Fred May, Jr., a  
bounding girl. 

Infants' caps, something pretty—Miss Judith Miller.

H. C. Corf, manager of the Fair, went  
to Louisville Sunday.

Fresh oysters in bulk, 40 and 60 cents  
per quart at City Bakery.

Don't miss it—get a corduroy hat or  
cap—see our line—Sulzer's.

Mrs.—Slasher, of Louisville, is  
with Mrs. John Allen Murray.

Miss Jessie Warfield is visiting Miss  
Eula Miller, near Hardinsburg.

The infant child of Mr. and Mrs. Ed-  
ward Gregory, died yesterday.

Miss Mary Ridgely Griffith went to  
Louisville yesterday morning.

Chrysanthemum shows are all the  
abounding subject with the women.

Local dealers in tobacco in this county  
have had a harvest of luck this year.

J. D. Cooper and Geo. Lawton, of  
Hawesville, were here Saturday.

Mr. Sam Baker has returned home  
from a visit to friends near Hawesville.

Miss Susette Mattingly, of Hardins-  
burg, visited Miss Florence Lewis last

week.

I will still continue to deliver bread,  
but have discontinued my wagon—City  
Bakery.

All about from both sides of the de-  
pot can be heard when the passenger  
trains come in.

You can rely on the market report  
that appears in the News. It is correct  
ed every week.

From the wee little tot—to the great  
big six-footer—we can cloth them good  
and cheap too—Sulzer's.

Mr. H. C. Cooper and wife, of Rock  
Vale, spent Saturday and Sunday with  
Mr. and Mrs. Thor. L. Wroe.

Mr. C. L. Griffith and Miss Anna  
Griffith, of Owensboro, were with Dr.  
and Mrs. S. W. Watkins, Sunday.

WANTED—A good house girl, one will-  
ing to do light housework, apply at my  
door—Ed. Gregory.

Are you going to have a fall hat or  
bonnet? If you don't fall to inspect  
the line of Miss Judith Miller.

David Barnes has moved to this city  
from Hardinsburg and has rented the  
Lillard property where he will conduct  
a hotel.

A satisfied customer is better than a  
page advertisement—that's why we are  
making so many living advertisements—  
Sulzer's.

Mr. and Mrs. A. J. Pace, Henderson,  
came to us yesterday to visit their old  
home and friends. They are well pleased  
with Henderson.

Mr. and Mrs. Will Mattingly and  
daughter, Miss Agnes, of Hardinsburg,  
were the guests of Mr. and Mrs. Thor.  
Lewis, last Thursday.

Those that are fortunate enough to  
celebrate Thanksgiving Day in the pro-  
per way, should have no fears about the  
turkey crop. It was never so good.

The ladies of the Presbyterian church  
will give an oyster lunch in their old  
building for the benefit of the building  
fund of the new church, Friday night.

Mr. James Deane, of Glendale, was  
in town Friday. He is one of Breck-  
enridge county's most prosperous farmers  
and the aeronage shown in when this  
year would far surpass any previous  
years.

From all over Breckinridge county  
people came to our store bargain  
hunting—they left our store loaded with  
good bargains and well pleased with  
their trip—Sulzer's.

Our Christmas says he wants  
more room—shoe, clothing and dry goods  
department say they can't give it—we  
make price for the next two weeks to get  
room for Old Santa—Sulzer's.

R. N. Hadson, road master of the  
Texas, intends to put the ground which  
lies back of the depot, into lawns. The  
waiting passengers will then have something to keep them from  
getting weary.

It is said, there is only one place  
where money has no value and that is  
on the Klondike. Men think no more of  
spending from \$300 to \$1,000, of  
eating three square meals a day.

Mr. Frank A. Dongherty, of Bar-  
tow, came to the city Sunday and  
Tuesday. He is a young man of ability  
and has recently been given an honor for  
which he is justly proud by the voters  
of Nelson county. He was Circuit Clerk  
of county for one term and in the  
late campaign, ran for the office of  
County Judge, as a staunch silver Democ-  
rat. He made the race successfully  
and came out with a handsome majority.

Footwear of fashions—Sulzer's  
For confectionaries visit the City  
Bakery.  
Nov. military goods at Mrs. Judith  
Miller's.  
Hear sweet mixed pickles at City  
Bakery.

Protracted meetings are being held all  
over the country.

Mr. James Funn, of Kirk, spent Sun-  
day in this city.

Tobacco from all directions is coming  
into this market.

The boats have resumed traffic and are  
making good time.

Can Whitehead shipped by river Sun-  
day twelve head of hogs.

Malta grapes, oranges, coconuts and  
figs at the City Bakery.

Mr. A. R. Fisher is visiting relatives  
and friends at Rock Vale.

Underwear warm and nice—extra  
good for the price—Sulzer's.

Something stylish in millinery can be  
had from Miss Judith Miller.

Mr. M. B. Swain, after an illness of  
two months, died last Thursday.

Born Nov. 12, to the wife of John  
Neubauer, a fine girl, Estella Greer.

Mr. P. M. Stevens and family, of Rock  
Vale, moved to Newport, Ky.

Capt. J. H. Rowland and Rev. T. J.  
Joiner went Monday for a hunt.

Mr. James G. Stephens, of "Alta Vista"  
was in town last week shopping.

Mr. G. A. Hendry formerly of Irving-  
ton, has located at Flaherty, Meade  
county.

Miss Bessie Jarboe, one of Clever-  
ton's society belles went to Skillman,  
Sunday.

John Dean, of Glendale, was in the  
city Sunday with Mr. and Mrs. C. W.  
Lick, to move to Louisville Friday night.

Mr. Elvira J. Babage went to Lou-  
isville, Friday to attend the chrysanthemum  
show.

A beautiful line of feathers and rib-  
bons awaiting your inspection at Miss  
Judith Miller's.

Judge William Abl and daughter,  
Miss Ella, of Hardinsburg, were with  
relatives Sunday.

Pete Dihon, this county, shipped to Lou-  
isville on Monday night's boat 15  
feet of fine hog.

Marion McGawd shipped to Lou-  
isville by Monday night's boat twenty-  
seven head of hogs.

John Cottrell had his 50th  
birthday, perhaps all locomotive and  
steamship, which sounds prettily  
alike, but to the practical ear there is  
an individuality about each one of them.  
Most people in Bowling Green remember  
John Cottrell, the youngest son of the  
late Rev. Joseph B. Cottrell, a Method-  
ist minister of more than local note.

While his father was stationed in the  
City of Paris, the old man spent

most of his time in and around the yards  
and roundhouses of the L. & N. railroad.

ist minister of more than local note.

Pete Dihon, this county, shipped to Lou-  
isville on Monday night's boat 15  
feet of fine hog.

Marion McGawd shipped to Lou-  
isville by Monday night's boat twenty-  
seven head of hogs.

John Cottrell had his 50th  
birthday, perhaps all locomotive and  
steamship, which sounds prettily  
alike, but to the practical ear there is  
an individuality about each one of them.

## BRECKENRIDGE NEWS.

WEDNESDAY, NOVEMBER 17, 1897.

## MATTINGLY.

Lots of rain.

Farmers are about done sowing wheat. The "Paki" made a clean sweep of this county and most pastoral district.

Miss Nola Frank is visiting relatives in the Tax Fork locality.

Bates &amp; Frank have moved their saw mill from Kirk to B. H. Bates'.

A protracted meeting commenced at Hickory Lick Sunday.

Misses Emma and Lillie Pace who have been sick for some time are able to be out again.

Mr. Brasier bought several crops of tobacco in this locality last week, prices ranging from \$5 to \$6.50, for leaf from \$3 to \$5 for lugs, and \$1 for trash.

Unless previous arrangements are altered, a series of meetings will begin at Elizabethtown the second Sunday in this month.

Mrs. Sticker, of Louisville, who has been a visitor at J. E. Hinton's for the past three weeks returned home Saturday.

Miss Ada Brickey returned home from Beach Fork last Saturday, accompanied by her cousin Miss Mary Minges.

"Wingding" who left these "Wingdings" with the intention of enlisting in the standing army, it is reported, has carried out his resolution.

The Republicans had a big rally here Saturday night, attended by the surrounding community, of course they had no brass band to lead the parade, but they had a number of men in horned belts and molds that made a racket just the same. They also had the streets beautifully decorated with lights, made of carpet rags, soaked in coal oil, stuffed in oyster cans and tied on the ends of bean poles. V. B. Burton, sheriff, etc., closed the meeting by addressing them with a short speech.

The same hall presented itself to be the center of attraction here every Sunday evening rain or shine, big little old and young, married and single all take a hand. They have a nice level place for the diamond, of course out side of this it is a little siding and cut up with galleries, but they play ball just the same and it takes a good amount of time to tear their sign down. Frank Mattingly is chairman of the organization.

## THE SICK.

Mrs. Wm. Ryan, Tar Creek, is no better.

Alexander Krown is on the sick list.

Mrs. W. R. Wethington who is down with consumption is no better.

Fudge Whitehouse is some better.

John Staples has symptoms of heart trouble.

The most brilliant affair of late was the marriage of Mr. Wm. Young, of Indiana, to Miss Anna Hinton, 27, at the Grace Episcopal church, Rev. G. H. Gilliland, officiating. At 9:30 o'clock the beautiful song, "Leaning on the Everlasting Arm," was sung by Mr. Millburn and his elegant choir and the bridal party entered the church. They marched slowly up the aisle, the bridegroom was really dressed in a formal uniform, an evergreen. Miss Jessie Hinton acting as bridesmaid while Mr. Charlie Barber acted as the groom's best. Immediately after the ceremony, the happy couple followed by a host of friends and relatives went to the home of the bride, where melodious hymns were sung until 9 o'clock, which added to the pleasure of the wedding. The attire was of beautiful blue cloth, trimmed in white silk, while the groom wore the usual black. The bride is the oldest daughter of John Hinton and has many friends here while the groom is a prosperous farmer of Perry county, Ind. They left Thursday morning for the home of the bride's home where they will make their permanent home. May suppress forever abide with them is the wish of the writer.

## THE SICK.

GALLIPOLIS, O., Nov. 12.—Ambrose Black, living near Winfield, was assassinated by his son and son-in-law last night because he threatened Mrs. Black. A bullet was used over his head and his son has killed his slayers have disappeared.

## Scrofula

Is a deep-seated blood disease which in the mineral mixture in the world is called "S. S. S. (Scrofulous Purpous Vegetable)" is a pure blood remedy for blood diseases and has no equal.

Mrs. T. V. Buck, of Delaney, Ark., a Scrofulous patient, said that for most of the time was under the care of the doctors who could not relieve her. A

She could not eat, and very

soon found that she had a real remedy at last. She says: "After taking one dozen bottles of S. S. S. I am well again."

My wife is healthy and I would not be in my former condition for two thousand dollars. I am now up to date in my system like the potato and arsenic, S. S. S. drove the disease out through the skin, and I was per-

manently cured."

A Real Blood Remedy.

S. S. S. never fails to cure scrofula, rachitis, Rheumatism, Consumption, Blood poison, or any disorder of the blood. It does not rely upon a simple tonic; it cure a disease, not a symptom, but take a real blood remedy.

Sources of failure—J. H. Hoskinson  
Recitation—Autistic Reading  
And all his started the Ball rolling,  
And the Ball had to roll  
When the town began to grow rapidly,  
And he had to roll around  
There was a gentleman from Hoosier  
Walked into the town  
Having an Indiana rubber tongue,  
And a pocket full of balls,  
He bought the store of Mr. Ball,  
And all his real estate.  
But this never checked the Ball from  
That little hill.Music—  
Sheet Music to Teach in School—Miss Alice Marion

List of George Eliot—Ch. W. D. Willett

Purposes—Eugene Gilliland

Literary Work in School—H. D. Bergman

Improvement—Miss E. Thomas

Practical Education—E. Thomas

Music—  
Music—  
Admission—  
The teachers, parents, trustees and all persons  
interested in the common cause of education in this  
and Meade county come out early and lend us  
aid by your presence and attention.

Com. J. A. H. H. S. S. C. S. M. C.

J. M. Thirwend, of Goshen, Tex.,

where he has a school of indigence

and feels bad and sluggish, takes

two of DeWitt's Little Early Risers at

night, and he is all right the next morn-

ing. Many thousands of others do the

same thing. Do you?

To California Through Sunshine.

The great Burlington now offers  
more diverse routes in connection with  
the Pacific Coast than does any other

railroad. Its main lines lead to Kan-

sas City, Denver, Billings and St. Paul,

permit an unlimited number of variable

routes for coast travel. No journey

the Burlington is complete without the

Burlington Route—a part of it. No

butter—between the Burlington and the
